WORK EXPERIENCE

Bitwise Industries   **July 2021 – Nov. 2022**
Full-Stack Developer   *Bakersfield, CA*
- Collaborated with developers to create software used by Ironsmith to generate estimates, quotes, and project accounting and tracking for tree grate products.
- Communicated with developers and apprentices to build an agricultural SaaS (software as a service) to keep track of crop, chemical, and labor costs.
- Contributed to the success of students who were creating their first web development project over a six-week period.
- Coordinated with other apprentices in researching and presenting on topics in regards to full stack web development, design, and mockup projects.

Castle Elementary   **Sep 2018 – Aug 2021**
School Aide   *Bakersfield, CA*
- Helped struggling elementary school students in an intervention program designed to accelerate the progress of their phonics and writing skills.
- Aided teachers in creating an environment that would help solidify the positive and safe expectations we set out for our students.
- Assisted teachers with the handling of large amounts of students in classroom settings.

Motor City Lexus of Bakersfield   **July 2017 – Feb 2018**
Service Porter   *Bakersfield, CA*
- Communicated with supervisors, service advisors, and managers to satisfy the customers' needs.
- Retrieved information from customers about the service they would like for the day.
